WHERE LUXURY MEETS SUSTAINABILITY

Highly visible between skyscraper buildings, One Shenton is a timeless masterpiece that dramatically enhances Singapore's city skyline.

Designed with biometric security access control and energy-efficient technologies, One Shenton exemplifies the standard of modern luxury living.

Our residential towers feature climate-friendly reflective facades which encourages the use of natural daylight. EV charging stations, designated recycling areas and pockets of greenery point towards our commitment for sustainability.

Sustainable building design features

- Energy efficient light fittings
- Inverter AC system & multi-mode of AC controls for common areas
- Extensive landscaping on club and wellness floors
- Apartment balconies and planters for the Sky Suites and Sky Villas
- Taps with flow regulators for better water efficiency
- Designated recycling areas including dual waste chutes on each floor - one for recyclables, one for trash

Accolades received by One Shenton for eco-efficient design features include a **Green Mark Gold award (2008)** from Building & Construction Authority (BCA) and a **Water Efficient Building award (2015)** from PUB Water Supply (Network) Department.
