## Prime location, a must for all businesses

A well-known commercial area that is easily accessible by public transportation, and surrounded by many residential developments, this is the perfect place to grow your business. With 17 commercial units, there will definitely be one or more, to meet your needs. The distinctive honeycomb façade ensures shoppers will be drawn to you.

The image is a composite of two architectural renderings of a modern residential building at night. The left half shows a full view of the building, which has multiple floors with large glass windows and balconies. The interior lights are on, and the balconies have glass railings. In the foreground, there is a swimming pool with blue water and several lounge chairs. To the left of the pool is a playground with a yellow slide and green climbing equipment. The right half of the image is a closer, semi-transparent view of the building's facade, showing the balconies and windows in more detail. An orange hexagonal graphic is overlaid on the right side, containing the word 'RESIDENTIAL'.
